Review: (Write on the board before class)
1) Classes of hazards (RAW,WAR,WAW,structural)
2) Pipeline phases: IF,ID,EX,MEM,WB

[Note I did these lecture notes by hand since my computer didn't work, so these are short]

Today: Scoreboard
Listed ideas on board
wrote the 4 steps of scorebaord and when go to next step
told students to try to figure out the steps.

Went around the room to says what the next step was.

This worked well; interactive; got people to ask questions about the decision

Took plenty of time; all that was available
